EDUCATION

- Shahjalal University of Science & Technology, Sylhet** 2019-2024
B.Sc. in Computer Science and Engineering CGPA 3.19/4
- Ullapara Science College, Sirajganj** 2018
HSC(Rajshahi Board) GPA 5/5
- Border Guard Public School & College, Sylhet** 2016
SSC(Sylhet Board) GPA 5/5

TECHNICAL SKILLS

Languages : C/C++, Java, Python, Javascript, Latex

Web Development : HTML, CSS, Tailwind CSS

Frameworks : Flask, Android, Streamlit, JavaFX, FastAPI

Databases : MySQL

Areas of Interest : Machine Learning

Others : Git, Linux

Problem Solving : Solved around 350+ problems across different programming platforms like

Codeforces([sadat2018331099](#)), Vjudge([2018331099](#)), UVA([2018331099](#)) and etc.

THESIS PROJECTS

- A-Context Aware Health Disease Prediction System Using Machine Learning | [Github Link](#)**
Predict diseases such as heart disease, diabetes, stroke, heart failure, pneumonia, skin diseases.
 - Developed an android app and a web app which predict health diseases such as heart disease, diabetes, stroke, heart failure, pneumonia(image classification), skin diseases(image classification) integrating machine learning.
 - Machine learning models are deployed in FastAPI. From different platforms(Web, Android), users send their data through API call to API endpoint where runs the ML models. And these models responses with prediction results.
 - Technologies: **Android, Java, FastAPI, XML, Python, Machine Learning, HTML, Tailwind CSS, jQuery, JavaScript**

PERSONAL PROJECTS

- Heart Disease Prediction System | [Github Link](#)**
Heart Disease Prediction using machine learning.
 - A heart disease prediction system which will predict whether a person is in the risk of having heart disease using machine learning.
 - Technologies: **Python, Streamlit, Machine Learning**
- Live with OCD | [Github Link](#)**
Created a forum/community where people with OCD will be able to have counseling, discuss and know more about OCD.
 - Created a forum/community where people with OCD will be able to have counseling, discuss and know more about Obsessive Compulsive Disorder and how to live with it.
 - Technologies: **Java, JavaFX, MySQL**
- Book Recommendation System | [Github Link](#)**
Book recommendation according to user's preferences using machine learning.
 - Book recommendation according to user's preferences using machine learning. It analyzes the content of books, such as keywords, genres, and themes, to identify commonalities and make recommendations.
 - Technologies: **Python, Flask, HTML, CSS, Machine Learning**
- Parking Lot Management - (IoT) | [Github Link](#)**
A well effective parking lot management using IoT devices.
 - Developed a parking lot management IoT project involves integrating Internet of Things (IoT) technologies to efficiently monitor and manage parking spaces.
 - Technologies: **Internet of Things, C/C++**

HOBBIES & INTERESTS

- Playing Cricket, Football.
- Reading Books, Travelling.
